8 Channel 720p SDI | 720p SDI Cameras

QT728-4G7-1

Featuring uncompressed digital signal and high definition resolution from just a shielded RG-59 cable, Q-See's QT728-4G7-1 offers the unique combination of HD and familiarity. This SDI surveillance bundle delivers full high definition resolution using tradition cables. It's the easiest HD upgrade if you have an existing RG-59 cable infrastructure. Protect the vital areas of your business in full HD resolution. Or, simply verify that important package was delivered. This platinum SDI system is packed with high tech features:
•720p recording technology captures a wider, undistorted, digital image that provides a more accurate video for superior recognition.
•Q-See's start-up wizard advances through the setup process step-by-step making complete protection quicker than ever.
•Real-time recording accommodates up to 30 frames per second on each of the 8 channels in order to produce smooth, continuous and uninterrupted video that reveals details.
In addition to these standard features, this SDI surveillance system offers a wide array of remote monitoring features to always keep you connected. Monitor and manage the system from just a compatible smartphone or PC. This system can even be set up to send out email alerts when motion is detected or if an alarm is triggered.
As the frontrunner in innovation, Q-See is the trusted leader in surveillance for home and business, delivering peace of mind anywhere, anytime
